| /tests | test_models.py |
|--------|----------------|
| /tests | test_urls.py   |
| /tests | test_views.py  |

| Validation of html, css and JavaScript   |   |  |  |  |  |  |
|--|---|--|--|--|--|--|
| Test subject / Method  | Notes   | Resolution   |  |  |  |  |
| HTML   |   |  |  |  |  |  |
| Validated on https://validator.w3.org/   | Ussues remaining: Home page hero-image and carousel sections don't have header elements (h1 - h2).  | Section headers are not relevant in those sections for the website, but they do make html more readable.   |  |  |  |  |
| Exlapnation: Each page was tested from the source page, which were created from the dev tools        | Cart button in navbar has a label, which is used for the cart item count, but it is flagged as bad html.  | I have kept the element as it is for stylistic reasons. It also does not cause problems for running the code.  |  |  |  |  |
| CSS  |   |  |  |  |  |  |
| Validated on <a href="https://jigsaw.w3.org/css-validator/">https://jigsaw.w3.org/css-validator/</a> | Errors:   |  |  |  |  |  |
|  | Parse Error @include media-breakpoint-only(xl) { column-count: 2; } @include media-breakpoint-only(lg) { column-count: 2; } @include media-breakpoint-only(md) { column-count: 2; } @include media-breakpoint-only(sm) { column-count: 2; } @include media-breakpoint-only(xs) { column-count: 1; } | The error is referring to a vendor provided code to manipulate slick carousel elements. Flags Parse Error, but the code in practice appears to be working correctly. |  |  |  |  |
|  | Warnings:   | Vendor prefixes:   |  |  |  |  |
|  | 216 -webkit-transform is an unknown vendor extension  | http://shouldiprefix.com/ recommends using vendor prefixes in some cases.  |  |  |  |  |
|  | 217 -ms-transform is an unknown vendor extension  | For transition -webkit and -ms are recommended, although css-validator flags warning.  |  |  |  |  |
|  | 298 -webkit-transform is an unknown vendor extension  | https://caniuse.com/#search=transforms gives unprefixed transition use 96.75%. I decided to follow the shouldiprfix given recommendation.                            |  |  |  |  |
|  | 299 -ms-transform is an unknown vendor extension  |  |  |  |  |  |
| JavaScript   |   |  |  |  |  |  |
| Validated on https://jshint.com/   | One undefined variable \$   | \$' is jQuery  |  |  |  |  |
